THE ADMISSION OF DAKOTA.

The Irish—The Telephone Patent—The Railroads and Telegraphy—General.

Admission of Dakota.

WASHINGTON, February 1.—Delegate Gifford, of Dakota, was heard this morning by the House committee on Territories in favor of the bill to admit North and South Dakota as separate States. He said the proposed States contain each nearly 75,000 square miles. Gifford read statements tending to substantiate the claim that the proposed States possess in eminent degree the conditions requisite to entitle them to admission to the sisterhood of States. All persons will agree, he said, that the treatment received by the Territory from the hands of Congress regarding this matter of Statehood is without parallel in the country's history. In its neglect and injustice he held that an excellent reason for division and the admission of the two parts of the Territory to be distinct States was that the functions of government could be better exercised by two States of medium size than would be the case if the Territory in its large unwieldy condition were admitted as a whole.

Arguments were also heard in favor of admitting Dakota as a whole.

Fire.

BUFFALO, N. Y., February 1.—The large dry goods establishment of Barnes, Henger & Co. is now on fire with indications of its being a total loss. It is reported that a number of lives have been lost in the fire, but nothing definite can be learned as yet.

Barnes, Henger & Co.'s establishment is a complete loss. Howard, a member of the firm, states that all the employees are safe and reports their loss at \$750,000. The fire is now under control. Property on the opposite side of Main Street has been seriously damaged by fire and water.

The fire broke out in the basement about noon, and spread with such rapidity that it was with much difficulty that the 450 employees in the building were rescued, many of them being rescued from upper stories by firemen. The building was a handsome iron-front, five stories high, and extended from Main to Pearl Street, and was owned by C. J. Hamlin. Insurance on the building, \$80,000, and on the stock, \$600,000. The total loss is estimated at \$1,200,000, with insurance to cover it.

The Irish

DUBLIN, February 1.—Ex-Lord Mayor Sullivan, of Dublin, was released from Tullamore prison to-day, after two months' confinement. A large crowd was gathered in front of the building and greeted Sullivan with great enthusiasm. Sullivan afterwards received addresses from various delegations.

The trial of Cox, a member of Parliament, for making a speech in County Clare, in October, during tenants to conspiracy, was concluded to-day. Cox was convicted and sentenced to one month's imprisonment.

LONDON, February 1.—John Morley and Marquis Ripon went to Dublin to-day. They received ovations at different stations at which their train stopped.

The Telephone Patent.

WASHINGTON, February 1.—The hearing upon the petition of J. W. McDonough for the reopening of the case in which Alexander Graham Bell was granted a patent for the speaking telephone was begun to-day before the commissioner of patents. The case has been before the department for about a year and a half, and involves the question of the priority of the invention of the speaking telephone. It is expected the hearing will occupy the remainder of the week.

Reducing Wages.

JOHNSTOWN, Penn., February 1.—A general reduction of 10 per cent. in wages of employees of the Cambria Iron Company went into effect to-day, the works running as usual in all departments but the wire mill. These men are now holding a meeting with closed doors. No trouble is anticipated by the company. Upwards of 10,000 men are employed in the works, and mines and all are affected by the reduction.

Surrendered.

CINCINNATI, O., February 1.—Eugene Zimmerman, formerly director of the Fidelity National Bank, who was in Europe when indicted by the United States Grand Jury for complicity in the transactions in that bank, has returned this morning. He went before Judge Sage, pleaded not guilty, and gave bond in the sum of \$20,000.

A Warm Welcome.

BOZEA, February 1.—Prince Ferdinand and party, who are making a tour of eastern Roumelia, arrived at Eskisagral to-day evening. The town was illuminated and the populace gave the Prince a warm welcome.

The Railroads and Telegraphy.

NEW YORK, January 1.—The law allowed the Pacific railroad companies to take contracts with telegraph companies and of course they did it. That's all I know about it," was the answer of C. P. Huntington yesterday morning, when the Anderson bill was brought to his attention. Dr. Norvin Green, president of the Western Union Telegraph Company, said: "The bill affects us very little, because we have our own wires there. Anderson's bill undertakes to pass upon the judicial question, whether railroads had a right to make contracts with telegraph companies. The courts have already decided that they had such right. The question is a matter of much more importance to railroad companies than to us. We have our lines there, and the only damage it would do us would be to put us to the expense of a few more offices on the line of the route, but as we should get all the receipts instead of giving railroads one-half as we do now, our increased expense would be more than met by the increased revenue."

The Pope

ROME, February 1.—The Pope, to-day, received Irish pilgrims and clergy, who presented him with addresses, expressing their devotion to the Holy See. They also brought a number of gifts for the Pope. After these had been presented, the Pope descended from the throne and walked down the ranks formed by the visitors, giving each his benediction and adding a few kindly words.
